

# EXCUSE ME YOUR PLANET IS BURNING

© Andy Vine May 2007 SOCAN

A A7  
Excuse me your planet is burning  
D A  
Excuse me it's really on fire  
D A F#m  
It may not seem hot where you're standing  
Bm E7  
But believe me the flame's getting higher  
A A7  
I really don't want to disturb you  
D F#7  
I know that the party was fun  
D A F#m  
But I think if you'd like to get out alive  
Bm E7 A  
It's time to start cooling it down

D A  
*'Cos this fire is all of our making.*  
D A  
*This fire is fueled by our greed*  
D A F#m  
*This fire will end when we come back again*  
Bm E7 A  
*To only consume what we need.*

Excuse me I see you're not listening  
I wonder if you really heard  
Or if you'd rather believe in some strange fantasy  
That says that the fire's not there.  
Can't you see that the ones who deny it  
Are the ones who would have most to lose?  
It's their fear of losing their wealth and their power  
That makes them deny and confuse.

Excuse me for minding your business  
But if you care for our kids please be true  
To that love in your heart and make a new start  
On a lifestyle called keeping it cool.  
It won't hurt too much if you hurry  
And get all your buddies on board  
There's no time to delay. Let me show you the way.  
It's time to start loving this world.
